Campus Highlights

MDCC Leads the State in Fall Enrollment Increase

In the fall, the Mississippi Community College Board released a report of preliminary enrollment figures for fall of 2021, and Mississippi Delta Community College showed the largest percentage gain over the past year amongst the state's fifteen community colleges. From fall of 2020 to fall of 2021, MDCC showed a 5.8% increase in enrollment. This translated to a growth of over 100 additional students. This was at a time when many Mississippi community colleges were experiencing a decrease in enrollment, with the state average percentage being -5.1%.

MDCC Makes the Top Five Ranking in Transfer GPA

Data from last fall from Mississippi's Institutions of Higher Learning showed that students who graduate from Mississippi Delta Community College and then transfer to a university graduate with a grade point average above the state average.

Students who began their college careers at MDCC and then transferred to a university graduated from that university with an average GPA of 3.28. The average transfer GPA for students who attend a community college and then transfer to a university is 3.23. This puts MDCC tied for the rank of fourth and ahead of ten other community colleges in the state of Mississippi.

MDCC Excels on Report Card

Mississippi Delta Community College received its Community College Report Card for 2020 and surpassed expectations. MDCC saw 49.4% of students complete English Composition I in the first two years as opposed to the state average of 45.8%. Perhaps more impressive, MDCC students who graduated from career-technical education and allied health classes had a 96% job placement rate, whereas the state average was only 93%.

Post-secondary education isn't the only area in which MDCC excelled. The Adult Education program saw 75.1% of its participants achieve a measurable skill gain. This number eclipsed the state average of 46.3%.

MDCC Doubles Parchman Enrollment; Introduces Honor's Program

MDCC was one of several community colleges to benefit from The Andrew W. Mellon Foundation's grant to support humanities education in Mississippi prisons. After holding its first semester a year ago, MDCC doubled the amount of student participation at Mississippi State Penitentiary this past fall.

Even more exciting is that the students enrolled in this program are now eligible to join Phi Theta Kappa Honor Society once they meet the necessary requirements. PTK is the international honor society of two-year colleges and academic programs, particularly state colleges and community colleges. This is the first time in Mississippi history that incarcerated students are eligible for acceptance into an honor society.

MDCC Receives Humanities Educator Award

Mississippi Delta Community College is honored to have received the 2022 Humanities Educator Award from the Mississippi Humanities Council for providing for-credit courses to incarcerated students at the Mississippi State Penitentiary at Parchman amidst the COVID-19 pandemic.

The Mississippi Humanities Council is a private nonprofit corporation funded by Congress through the National Endowment for the Humanities to provide public programs in traditional liberal arts disciplines to serve nonprofit groups in Mississippi. The awards given by the Mississippi Humanities Council recognize outstanding work by Mississippians in bringing the insights of the humanities to public audiences.

MSU and MDCC Enter into Agricultural Education Agreement

Mississippi State University and Mississippi Delta Community College signed a memorandum of understanding in the fall to formalize partnership programs for students enrolled in technical education programs. The agreement outlines a pathway for MDCC students to complete an Associate of Applied Science degree in Field Crops Technology at MDCC and transfer seamlessly into MSU's Agricultural Science program and earn a Bachelor of Science. The partnership leverages the strengths of both institutions to provide more opportunities in technical education and meet current and future workforce demands.

HUMANITIES TEACHER OF THE YEAR

Jenni Hargett

Hargett explained that with the world moving and changing so quickly, the faculty owe it to the students to provide them with the tools required to navigate a culturally complex world. "In other words, code-meshing allows writers and speakers to draw on their individual life experiences and cultural backgrounds through linguistic choices," Hargett further explained. "This does not mean abandoning 'proper' English altogether; on the contrary, code-meshing allows writing instructors and students to bridge gaps in life experience to work together toward a greater understanding of how language and communication actually works--outside of the bubble of the Composition classroom."

Hargett concluded by saying that language is powerful and that she has come to acknowledge that there is value in uncovering the voices of students without stifling their diverse heritages.

The Nobile family has a long history with the school dating back to the early 1970s when Jerry and Sandra first enrolled. Their son, Will, would later take classes in the early 2000s. Sandra also worked for MDCC as a teacher for many years as well. They each felt flattered that MDCC would think so highly of them.
